As has been the of his own church that he would make abortive all plans for united efforts in abortive all plans for united efforts in hehalf of religiou simply because his own church would not abine sufficiently in the general scheme. I think it is about time that this state of affairs ends. This com-mittee has been just as successful as sim-lar committees in the past. They have agreed to keep the peace by disagreeing. Doctor Young may not be as well informed us some of the rest of us on this subject, but I assure him that it is absolutely im-nossible for this committee to get forether as long as certain people are members of it."

The Reverend Doctor John L. Brandt, who is a member of the committee, and also interested in the Christian Endeavor Hotel proposition, said that the committee must be changed if there is still any desire on the part of the alliance to hold union meetings for the World's Fair people. He said that he personally was in favor of it, but that the committee had labored to carry the proposition, but all to no purpose.

"As a member of the hotel company," he said, "I wish to state that after this resolution had been shown to the directorate last Friday the members were surprised at the action the committee had taken, and immediately a subscription was taken up among the directors for the purpose of building an auditorium independent of the chorus of 1.000 voless to sing Sunday afternoors, and I think the plan is to invite certain ministers to conduct services."

is known as the Northern Field.

The minets from the northern part of the State are putting up a strong fight sgainst a reduciben, and are backen by National President John Mitchell. In all the other districts the miners bowed gracefully to the Interstate agreement, which reduces their wages 3 cents a ton. Williamson County miners, who had protested against a reduction since the joint convention opened, save up the fight this morning and, with the other miners, accepted a cut of 3 cents on the ton.

The miners from that county objected to a reduction on the ground that their scale has always been 3 cents below an equitable differential, as compared with adjoining fields.

After the scale was gone over serigitm, and accepted in all the districts except the first, the remainder of the day's \$5.500 was devoted to the Northern Field. When the time for adjournment arrived no agreement had been reached.

To-merrow, while the Scale Committee is at work on the matter, a subcommittee will take up the question of resolutions which accompany the scale.
